

# FLOODED HIGH TEMPERATURE BATTERY

38B20RHT (12V36Ah)

## CHARACTERISTICS

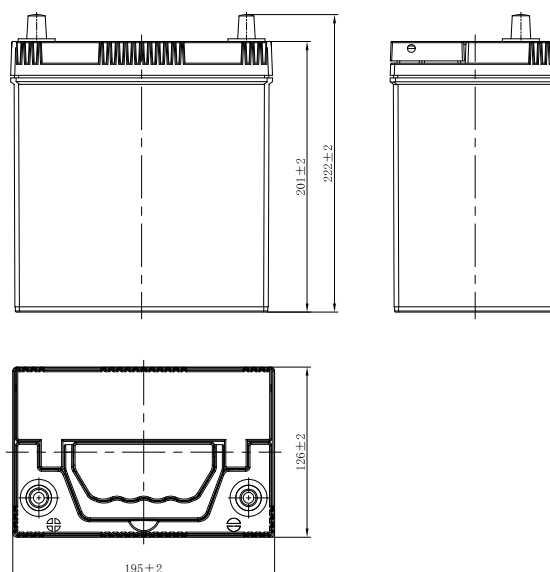

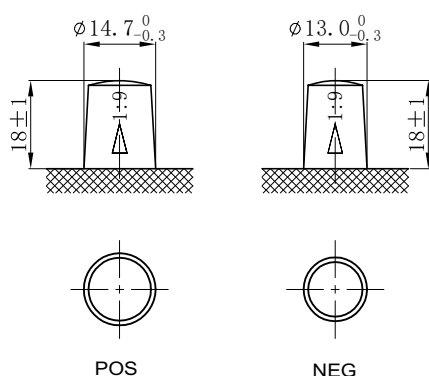

| Item                           | Specifications               |                    |
|--------------------------------|------------------------------|--------------------|
| Nominal Voltage                | 12V                          |                    |
| Nominal Capacity (20HR)        | 36Ah                         |                    |
| Reserve Capacity               | 54min                        |                    |
| Cold Cranking Amps@0°F (-18°C) | 300A                         |                    |
| Dimension                      | Length                       | 195mm (7.68inches) |
|                                | Width                        | 126mm (4.96inches) |
|                                | Container Height             | 201mm (7.91inches) |
|                                | Total Height (with Terminal) | 222mm (8.74inches) |
| Approx Weight                  | 9.6kg (21.2lbs)              |                    |
| Terminal                       | 3                            |                    |
| Cell layout                    | 1                            |                    |
| Hold-Down                      | B0                           |                    |
| Case                           | Black-PP Material            |                    |
| Cover                          | Black-PP Material            |                    |
| Handle                         | TS1                          |                    |

## APPLICATIONS

- Car start
- EV/HEV
- Engine start

## GENERAL FEATURES

- Design for high temperature countries and regions
- Superior life in high temperature environment
- High tin alloy and thicker positive grid
- High-temp paste
- Patented venting system bring less water loss and prevent acid leakage

\*Values are subject to variation of +/- 5% in normal manufacturing processes.
