

# DT SERIES FLOODED BATTERY

## DT876 (8V170Ah)

## CHARACTERISTICS

| Item               | Specifications   |                      |
|--------------------|------------------|----------------------|
| Voltage            | 8V               |                      |
| Dimension          | Length           | 260mm (10.2inches)   |
|                    | Width            | 180mm (7.09inches)   |
|                    | Container Height | 248mm (9.76inches)   |
|                    | Total Height     | 279.5mm (11.0inches) |
| Approx Weight      | 29.2kg (64.4lbs) |                      |
| Terminal           | DT-M8            |                      |
| Container Material | PP               |                      |
| Rated Capacity     | 20HR             | 170Ah                |
|                    | 5HR              | 145Ah                |
| Reserve Capacity   | 25A              | 295min               |
|                    | 56A              | 117min               |

## GENERAL FEATURES

- Long cycle service life, strong recovery ability of deep discharge
- Low risk of thermal runaway, easy maintenance
- High energy, low internal resistance, low self-discharge
- Reliable sealing structure ensures no leakage during use
- Special design and structure increase battery performance
- The special alloy improves the corrosion resistance of the plate increases the service life and good deep discharge performance

## APPLICATIONS

- Electric vehicle
- Cleaning equipment
- Golf cart
- AWP
- Sightseeing bus
- Marine&RV

## Charging Characteristics

## Discharge Characteristics

Designed in compliance with applicable BCI standard.  
Tested in compliance to BCI standard.
